2

WHO WE ARE

Delivering end-to-end life safety and electronic security solutions throughout Africa & LATAM, to customers requiring protection of their people, property and assets.

Founded in 1971 and in several decades of trading, we have earned a position of trust with stakeholders.

We pride ourselves on turnkey execution – from system design, documentation, commissioning and system handover.

We employ highly qualified specialists who regularly undergo training in their relevant fields.

3

WHAT WE OFFER

- Fire Detection & Evacuation
- Emergency Voice Systems
- Fire Fighting
- Emergency Lighting
- Gas Suppression Systems

- AI Driven HD Cameras & Video Security
- Self-Learning Video Analytics
- Appearance Search
- Unusual Motion & Activity Detection

- Cloud-Based & Mobile Video Surveillance
- Narrow Band IoT Device Monitoring
- Cloud-Based Credential Management

Fire Protection & Life Safety

HD Video Surveillance

4IR, IoT & Cloud Solutions

Integrated Security Management Systems

Enterprise Access Control Systems

- Integrated Command & Control between separate subsystem (e.g. HD Video Surveillance, Access Control, Alarm Devices, Plant Sensors, Fire Detection & Suppression Systems)
- Graphical Maps & Data Visualisation
- Automated Reporting & Dashboards

Predictive Maintenance

- Comprehensive Predictive & Preventative Maintenance
- Servicing & Repairs
- Remote IoT Monitoring
- Monthly Condition Tracking
- 24/7 Maintenance Service
- SANS 10139:2012 Compliance

- Enterprise Level Access Control
- Visitor Management
- Workforce Management
- Perimeter Protection
- Key Management
- Electromechanical & Intelligent Locker Solutions

OUR PARTNERS

ABILITY TO SUPPORT

6

ABILITY TO DEVELOP

We have a dedicated budget set aside for training to ensure that our technical teams are certified. We are constantly evaluating new products so that our clients are always up-to-date with the latest features, upgrades and technology available. We further invest in the development of an extensive network of Approved Partners, who are strictly vetted against FS Systems' compliance and technical criteria, including PSIRA and SAQCC registrations, and have access to the Training Facilities mentioned.

7

ABILITY TO EXECUTE

Successful Projects completed including National Key Points

Full online visibility to Client and Project teams

Ability to deliver projects in difficult environments

Our track record is backed up by both client and supplier reference letters

PMBOK based Project Methodology & Project Execution
